3. **Question:** According to the Terms and Conditions, Section 26, Subsection F, (Professional Liability Insurance),

“Policy in the amount of One Million Dollars per claim and Three Million Dollars in the annual aggregate”

The liability coverage is required. Due to an acute on chronic medical liability cost crisis in Florida, our agency maintains Five Hundred Thousand/One and a Half Million Dollars in coverage, this has become typical in the industry and is the result of an approximately Four Hundred percent increase in malpractice premiums over the last five years. Obtaining a One Million/Three Million Dollar policy would likely be cost prohibitive for our organization. As such, I am requesting a waiver for this One Million/ Three Million Dollar policy limit and ask that the County allow us to proceed with the application with our current Five Hundred Thousand/One and a Half Million Dollar limits.

Response: The Professional Liability Insurance requirements listed in the Request for Proposal is the required coverage for the awarded agency or

agencies. No waiver less than the amount stated in the Request for Proposal will be granted for this specific coverage.

4. Question: Can an agency request reimbursement for transportation?

Response: Please see the revised Attachment C1 and C2. A transportation line has been added under Section A and B.

Additional Clarification Information:

Please see the revised Attachment C1 and C2 adding a line item labeled other on both Section A and B. Please provide a brief description of the service to be included in the box labeled "other brief description" as to what the unit cost will include under Section A.
